

Auto-Immune Diseases

One of today's serious
epidemics

Auto-Immune Diseases

Relates to allergies...

Immune dysfunction is real enough...

But WHY? The answer is probably
three-fold...

Auto-Immune Diseases

Pollutants and pesticide burden (known
inflammogens).

Heavy metal toxicity.

Last but not least...

Auto-Immune Diseases

Pollutants and pesticide burden (known
inflammogens).

Heavy metal toxicity.

Last but not least...

VACCINATIONS

Auto-Immune Diseases

Veterinary studies make it **VERY CLEAR** that vaccinations lead to auto-immune disorders.

Why should humans be any different?
They rely on animals studies when they want to!

Auto-Immune Diseases

Vaccinated dogs in a Purdue study developed auto-antibodies to many of their own fibronectin, laminin, DNA, albumin, cytochrome C, cardiolipin and collagen.

Auto-Immune Diseases

Fibronectin is involved in tissue repair, cell multiplication and growth, and differentiation between tissues and organs in a living organism.

Auto-Immune Diseases

Laminin, which is involved in many cellular activities including the adhesion, spreading, differentiation, proliferation and movement of cells.

Auto-Immune Diseases

Collagen, provides structure to our bodies, protecting and supporting the softer tissues and connecting them with the skeleton. About one quarter of all the protein in the body is collagen!

Auto-Immune Diseases

The dogs developed autoantibodies to their own DNA. Did the scientific community call a halt to the vaccination program? No. They said, "more research is needed."

Auto-Immune Diseases

The “epidemic” of autoimmune diseases parallels the rise in vaccination use.

Repeated immunization with antigen causes systemic autoimmunity in mice otherwise not prone to spontaneous autoimmune diseases.

Auto-Immune Diseases

In other words, vaccines appear to be capable of removing the natural intelligence of cells.

Canine Health Concern's 1997 study of 4,000 dogs crippled by vaccines.

Auto-Immune Diseases

The American Veterinary Medical Association (AVMA) Vaccine-Associated Feline Sarcoma Task Force initiated studies to find out why 160,000 cats each year in the USA develop terminal cancer at their vaccine injection sites.

Auto-Immune Diseases

Do we have a human vaccine associated damage task force?

Auto-Immune Diseases

Do we have a human vaccine associated damage task force?

No, we have a vaccine associated damage cover up force, called the FDA!

Auto-Immune Diseases

So what happens in humans?

We have a massive epidemic of cancer going on.

We have a massive epidemic of auto-immune diseases going on.

Auto-Immune Diseases

There is also an epidemic of food allergies and other overload effects.

Is all this vaccine-related?

You bet your life it is. Evidence comes from EAV and homeopathy...

Auto-Immune Diseases

Let's focus in on the so-called
"autoimmune diseases".

The body attacks its own tissues.

It's an "allergy to self"; the body can't
recognize "self" and "non-self".

Auto-Immune Diseases

More than 80 serious, chronic illnesses including nervous, gastrointestinal, and endocrine systems, skin and other connective tissues, eyes, blood, and blood vessels.

Auto-Immune Diseases

Third most common category of disease after cancer and heart disease!

Three-quarters of patients are women.

All the evidence is that it is self-inflicted by humans (meaning doctors)

Auto-Immune Diseases

Examples:

MS, lupus SLE, scleroderma, Hashimoto's thyroiditis, Graves disease, type I diabetes, Sjögren's syndrome, Crohn's disease, ulcerative colitis, Guillain-Barre syndrome, temporal arteritis, Ménière's disease

Auto-Immune Diseases

One member asked me about **temporal arteritis**. It's characterized by severe headaches and not unlike migraine...

Migraine is specific foods, TA is a more systemic disease but still responds.

Auto-Immune Diseases

Solutions:

Eliminating high impact foods a MUST.

Chemical clean up.

Heavy metal chelation

Pre- and Pro-biotics

Auto-Immune Diseases

Solutions:

Eliminating stealth pathogens

Nutritional help: omega-3s, alpha lipoic acid, enzymes (bromelain, papain, Wobenzym), spices (ginger, curcumin)

Auto-Immune Diseases

The truth is, any disease can recover, if the body is helped.

So it's not just "solving allergies" but building integrated health.

DW Academy is a school of good health!
